## Introduction

King Mongkut's Institute of Technology Ladkrabang (KMITL) has established the academic cooperation with Fukuoka Institute of Technology (FIT), Japan. The two institutions have set up a special Japanese study program for students who have intention to continue their further study aboard at FIT. The students will learn Japanese language at FBK for about 9 months before going to FIT in the following year. The course at KMITL is the elementary up to intermediate Japanese language learning.
