Introduction

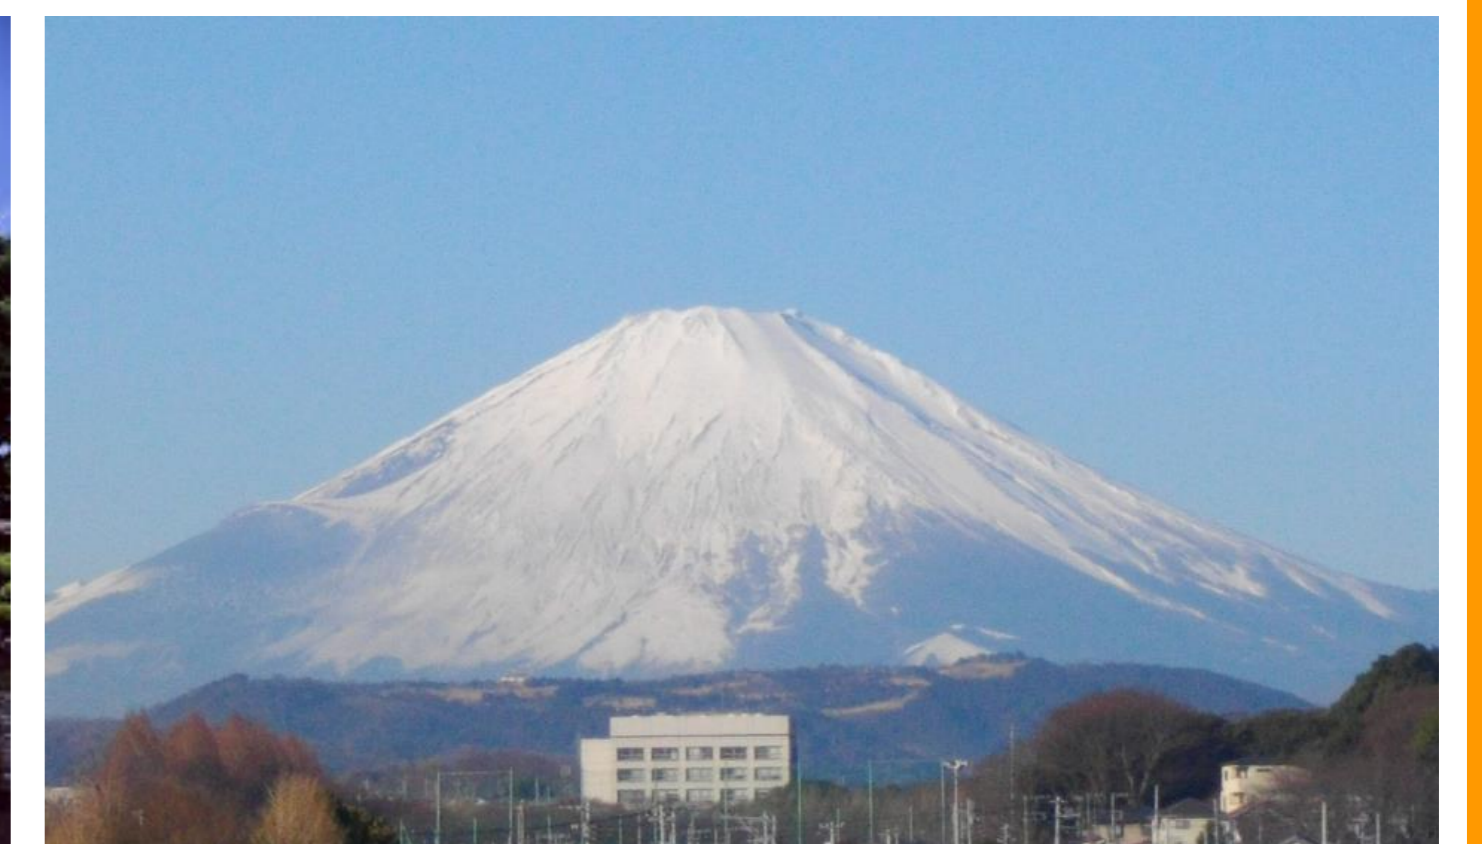

Tokai University is a private university established by Dr. Shigeyoshi Matsumae in 1942 and is one of the largest general education and research institutions in Japan today. Tokai University consists of 8 campuses, which are composed of 19 schools and colleges made up of 75 departments, majors, and programs. Its graduate school's offer 35 programs. The total student population has roughly 30,000 students. Tokai University will celebrate its 75th anniversary in 2017.

The Educational Creed

Cultivate your thoughts in your early days
Nurture your body in your early days
Develop your intellect in your early days
Aim your hopes towards the stars in your early days

Major activities

Strong partnership with Thai universities

Tokai University commenced its relationship with Thailand in 1965 through the Overseas Technical Cooperation Agency (superseded by JICA). Since then, more than 500 exchange students have studied at Tokai University to return to Thailand after achieving their Doctorate and other degrees.

Various programs for international students

Tokai Institute of Global Education Research (TIGER) offers programs for international students including regular Japanese Language Course and short-term summer programs. The Graduate School of Engineering (Master's degree and Doctoral degree programs) offers courses taught in English.

Diverse fields of innovative research and its application

The university promotes state-of-the-art research activities for future generations. The main research areas include nanotechnology and life science. The university also supports building academia business cooperation in applying research outcomes.
