

# Nara Institute of Science and Technology (NAIST)

## NAIST Thailand Office

Contact address: Room 703, Chuchart Kumpoo Building, Faculty of Engineering, Kasetsart University, 50 Ngamwongwan Road, Chatuchak, Bangkok 10900, Thailand

<http://www.naist.jp/en//>

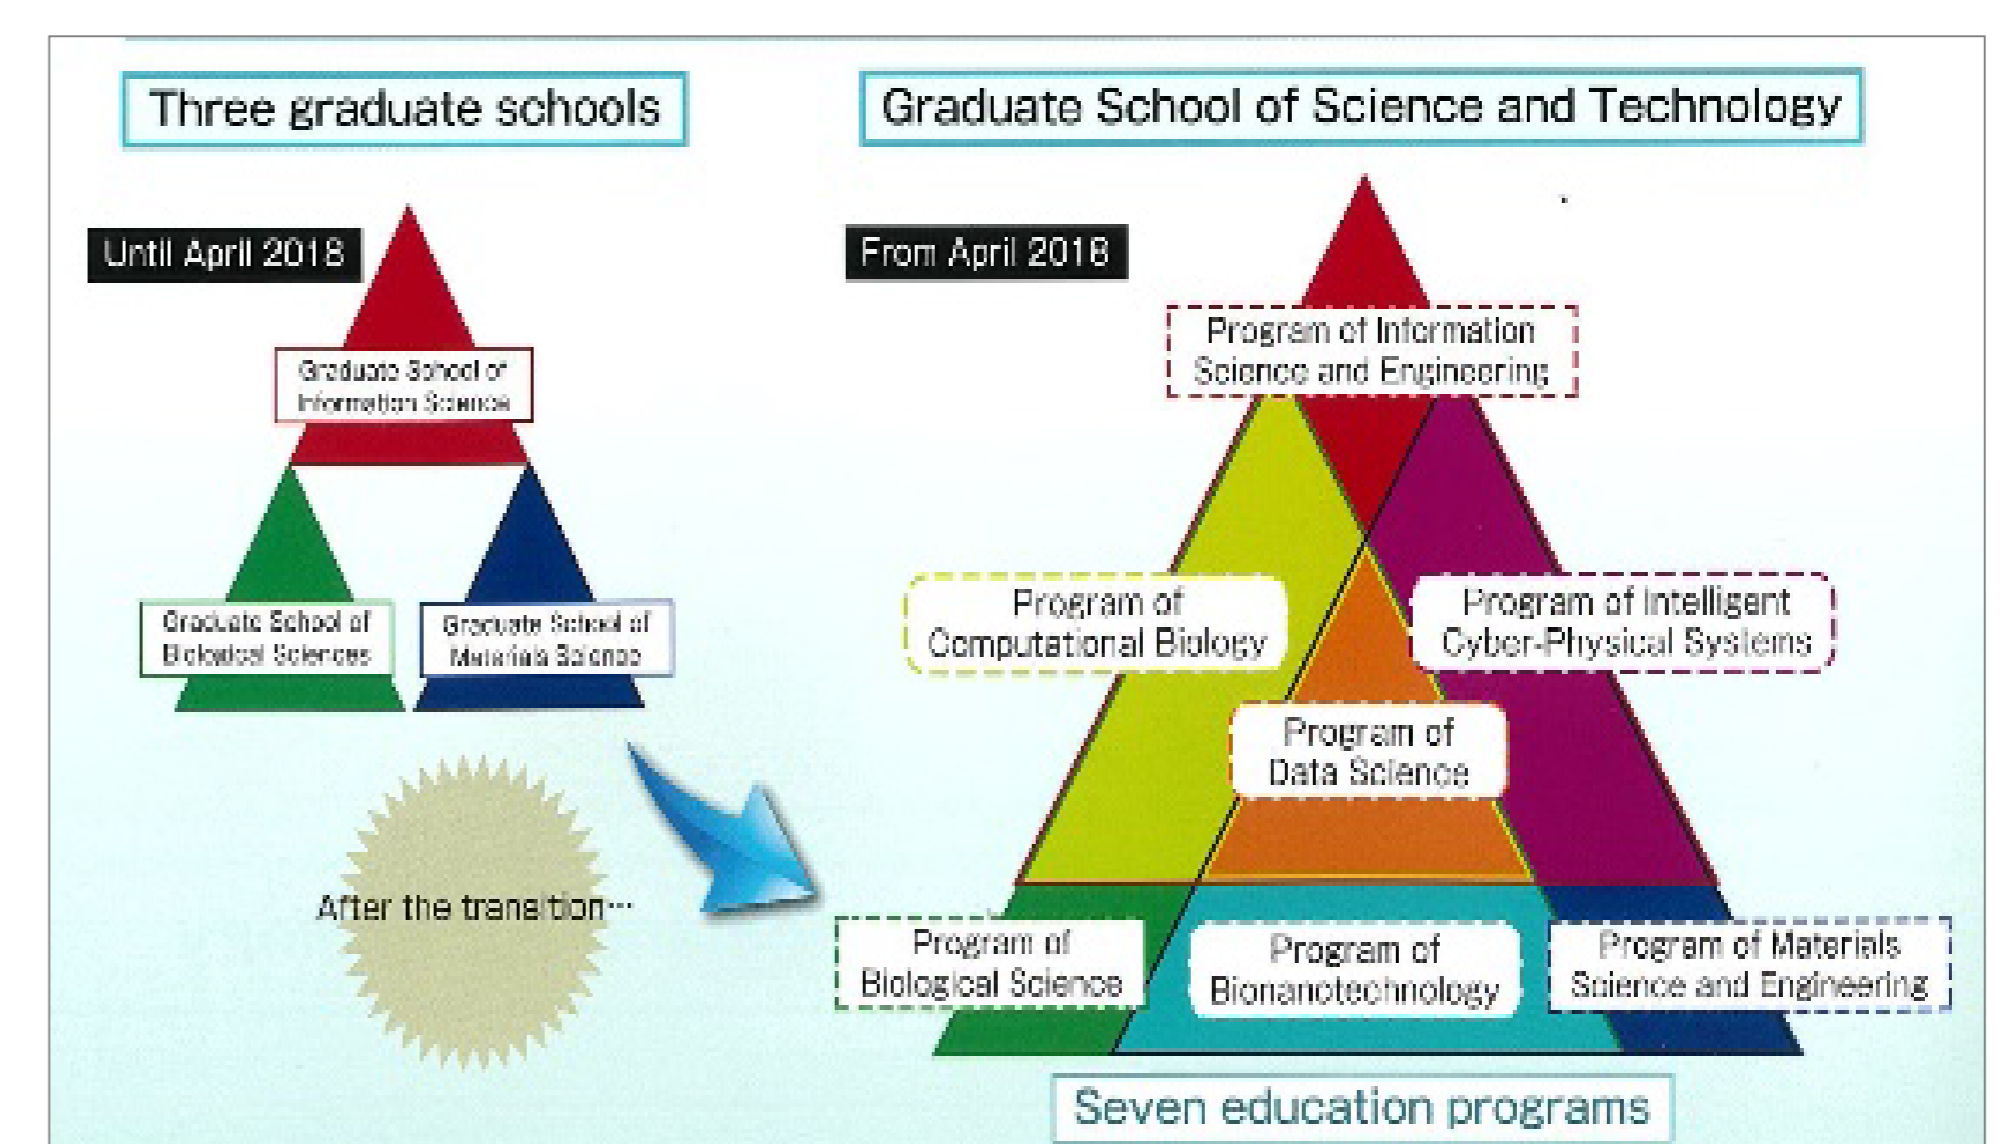

## Introduction

The frontier of science and technology is expanding rapidly, and should be promoted based on interdisciplinary approach, rather than on traditional academic divisions. To meet the demand, NAIST is established as a new type of national university composed of graduate schools only, to respond flexibly to the developments of science and technology.

### ○ Transition to a Single Graduate School

To establish a structure for the flexible and expedient organization of interdisciplinary educational curriculum of the 3 current fields and with the current graduate school curriculum, NAIST resolved to create a 1 graduate school, 1 department structure in 2018. In it, 7 education programs foster globally active human resources with broad and highly specialized knowledge of advanced science and technology, with internationally focused faculty gathering from different fields to educate to develop the specialized skills and knowledge and the broad understanding demanded by society and for interdisciplinary research collaboration and education.

## Major Activities

NAIST joined the Japanese Universities' Network in Thailand (JUNThai) to expand our network with education and research institutions, while holding a NAIST Thailand Office inaugural symposium in September 2017 as part of the TGU Project to improve our education and research presence.
