Under the university philosophy "Always aim higher", we are focusing on developing individuals who can contribute to solving problems in response to changing times and environments. Our goal is to showcase our influence not just within the local community but on the global stage as a world-preminent academic institution in both education and research, paving the way for a promising future and becoming the preferred university of choice.

Major Activities in Thailand

- **Established Social Design Institute (SDI) in April 2024 in collaboration with KMUTT**
- **Student exchanges and research collaborations with partner universities**
- **22 University-level agreements**
- **9 Double-degree programs**

(as of May 2024)
