Introduction

Tokai University is a private university which was established by Dr. Shigeyoshi Matsumae in 1942 and celebrated its 75th anniversary in 2017. It is one of the largest general education and research institutions in Japan today, consisting of 7 campuses spread over the country. The 19 schools and colleges made up of 75 departments offer a vast variety of majors and programs, and have a combined population of 30,000 students, with its graduate schools offering an additional 39 programs. As of May 1, 2021, 1,300 international students are studying at Tokai University.

~ Think Ahead, Act for Humanity ~

The Educational Creed

Cultivate your thoughts in your early days
Nurture your body in your early days
Develop your intellect in your early days
Aim your hopes towards the stars in your early days

Major Activities

Strong Partnership with Thai Universities

Tokai University commenced its relationship with Thailand in 1965 through the Overseas Technical Cooperation Agency (superseded by JICA). Since then, more than 600 exchange students have studied at Tokai University, returning to Thailand after achieving their Doctorate and other degrees/certificates.

Exchange Program

Through partnerships with more than 120 universities and institutes in around 40 countries, Tokai University offers approximately 60 internship and study abroad programs.

Program for International Students

The Graduate School of Engineering offers courses taught in English. This program is specifically designed for international students from all over the world to acquire the research techniques and theories in their particular fields of study in engineering.

Diverse Fields of Innovative Research and Application

Tokai University encourages cutting-edge research for the next generation in a variety of fields, centering on nanotechnology and life science. Also, the university promotes collaboration among industry, government and academia by taking advantage of the wide range of schools that comprise the university.
