Kansai University Researches

PROJECT ① Resource sharing

KANSAI UNIVERSITY
OPEN RESEARCH CENTER
for ASIAN STUDIES

KU-ORCAS is building an open digital archive platform to share historical resources about East Asia with researchers and promote several international collaborative studies.

PROJECT ② Network building

KU-SMART PROJECT

Kansai University Smart Materials
for Advanced and Reliable Therapeutics

KU is developing KUMP to accelerate innovations in clinical settings. KUMP is an acronym for "Kansai University Medical Polymer", which will become a unique brand of medical devices borne from collaborations among material chemists, mechanical engineers, and medical doctors.

International Events for Networking

International Collaboration

Collaborative studies and student exchange program with
-Chulalongkorn University
-Thammasat University

International Symposium in Japan
