

【Kyushu University Energy Week 2026】

1. Overview

Kyushu University hosts the “Kyushu University Energy Week” annually, bringing together energy-related research departments across the university. This event features a variety of programs, including international symposia and workshops, with participation from world-leading researchers and experts from industry and local governments in the fields of energy and decarbonization.

During the week, the International Institute for Carbon-Neutral Energy Research (WPI-I²CNER) will hold its annual symposium, “I²CNER Annual Symposium: Challenge and Innovation for a Carbon-Neutral Society and Beyond”, as well as I²CNER Thrust Workshops and CESD Workshop. In addition, as a related event, a joint symposium with the Okinawa Institute of Science and Technology Graduate University (OIST) will take place in Okinawa on January 21-22.

We look forward to your participation.

2. Dates

January 26 (Mon) – January 30 (Fri), 2026

3. Venues

Kyushu University, ACROS Fukuoka, and Denki Building Kyoso-kan
(Hybrid format, with some sessions held on-site)

4. Participation Fee

Free of charge

5. Registration

Please register via the webpage listed in section 6 by filling in the required information.

6. Webpage

<https://q-pit-ew.kyushu-u.ac.jp/en>

7. Organizers and Co-organizers

Organizer:

Kyushu University Platform for Inter-/Transdisciplinary Energy Research (Q-PIT)

Co-organizers:

International Institute for Carbon-Neutral Energy Research (WPI-I²CNER),
Research Center for Hydrogen Industrial Use and Storage (HYDROGENIUS)

8. Language

Languages used in each event may vary [Japanese/English].

9. Contact (WPI-I²CNER)

International Institute for Carbon-Neutral Energy Research (WPI-I²CNER), Kyushu University
