

KOSEN

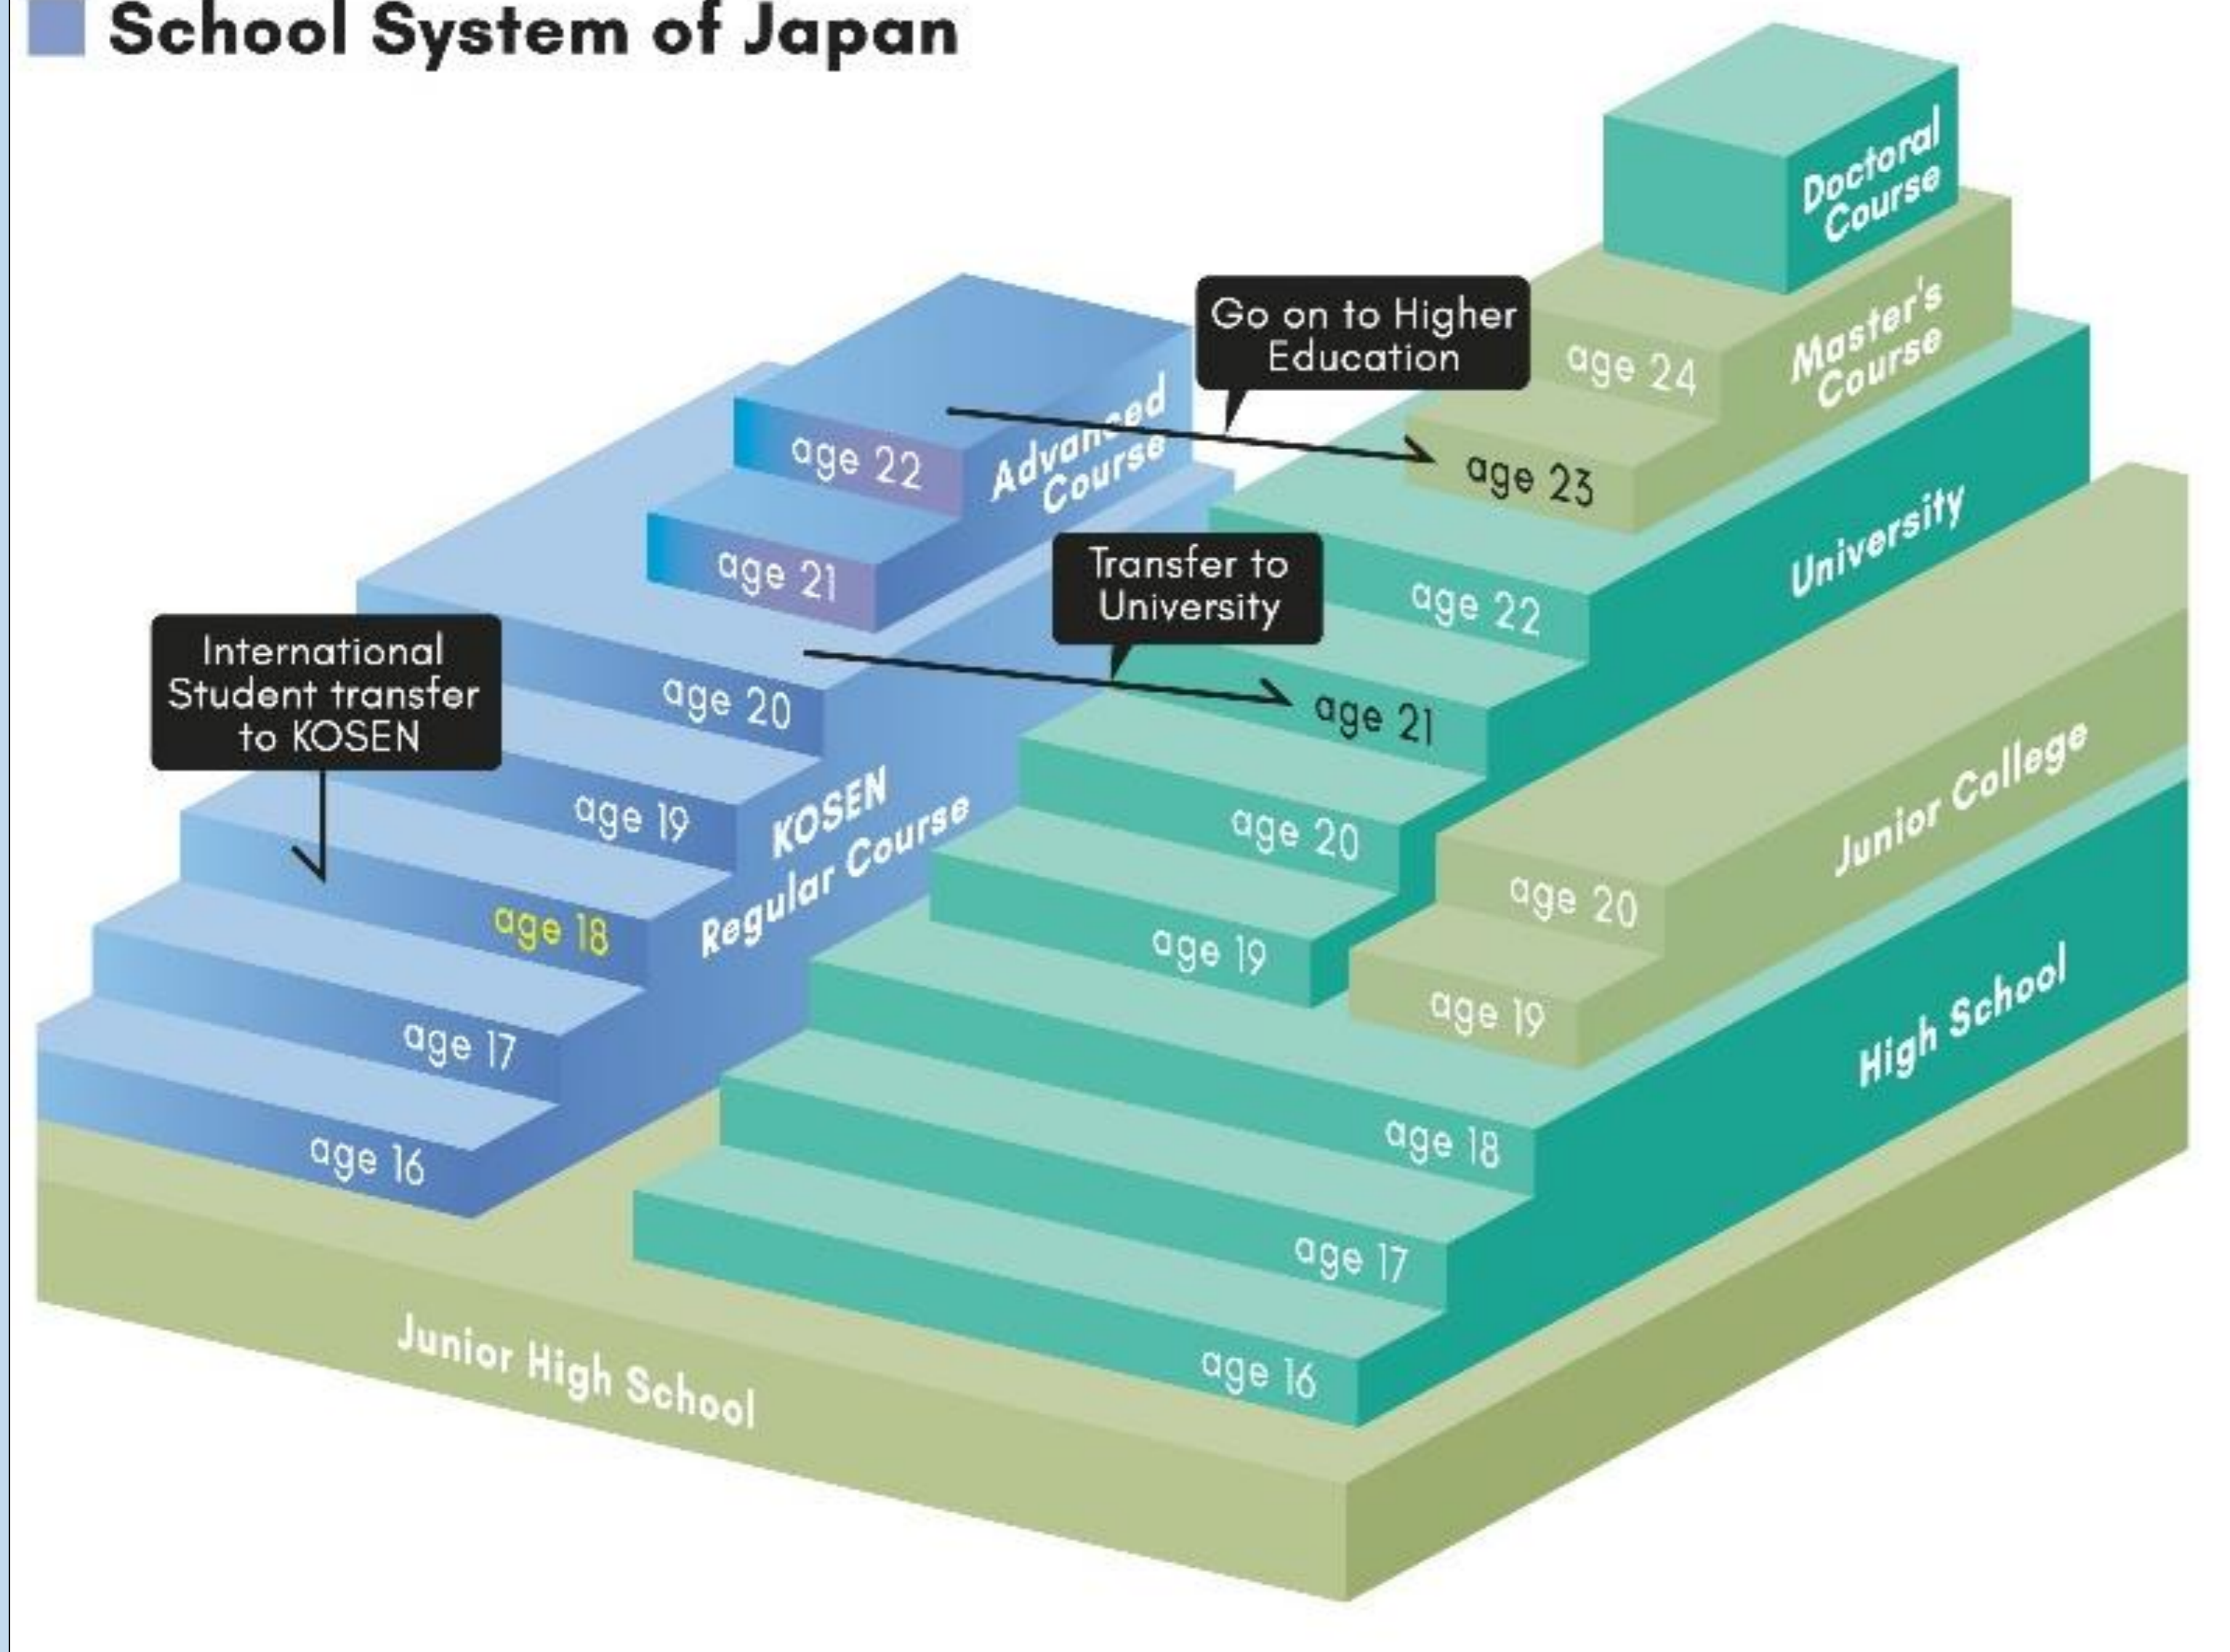

National Institute of Technology

Introduction KOSEN is a unique institution of higher education in Japan, which provides with five-year consistent engineering education in the aspect of lecture, experiment and practice phase, starting from the age of **15**. The National Institute of Technology (NIT) operates **51** national KOSEN colleges nationwide and fosters highly qualified, practical and innovative engineers to become “social doctors”, who contribute to society through the engineering. NIT has an enrollment of approximately **50,000** students and **4,000** academic staff.

School System of Japan

▲ International Students transfer to 3rd year grade of the KOSEN regular course.
KOSEN graduates get a job, transfer to universities and the KOSEN advanced course.

Educational Collaboration in Thailand

NIT has been building a comprehensive partnership with Thai government and supporting the human resource development of practical and innovative engineers by the KOSEN education. KOSEN-KMITL at the KMITL and KOSEN KMUTT at the KMUTT have been established as Japanese style KOSEN in Thailand.
