

About Fukui University of Technology

◆ UNDERGRADUATE (Faculty & Department)

Faculty of Engineering Department

- Electrical, Electronic and Computer Engineering
- Mechanical Engineering
- Architecture and civil Engineering
- Applied Nuclear Technology

Faculty of Environmental Studies Department

- Applied Chemistry and Food Science
- Design

Faculty of Management and Information Sciences Department

- Management and Information Sciences

Faculty of Sports and Health Sciences Department

- Sports and Health Sciences

◆ GRADUATE SCHOOL OF ENGINEERING (Department & Course)

Department of Applied Science and Engineering

- Electrical, Electronic and Computer Engineering
- Space Information Science
- Mechanical Engineering
- Environmental and Biological Chemistry
- Nuclear Technology Application

Department of Social System Engineering

- Civil Engineering
- Architecture
- Design
- Management Information Science

◆ The Number of Students

- Undergraduate : 2,102 (Female 261)
- Graduate School : 55 (Female 11)

◆ FUT Special Project Fukui PHOENIX Hyper Project

Purpose

- The only university and the private sector in Japan that establish the satellite ground station to operate satellites for the moon orbit
- The establishment of foundations of the operation of the satellite orbiting the earth
- Contribution to environmental measurement, and conservation, and industry development by utilizing satellite data and the satellite ground station
- Contribution to the community through the development of human resources
