HUMAN SCIENCE

ALLIED HEALTH SCIENCES

ARTS

University of East Asia (UEA) is located in Shimonoseki where is between Fukuoka and Hiroshima. Shimonoseki is a castle town with many natural tourism spots like hot springs. The weather is nice and warm and there is no need to worry about earthquakes, Tsunamis, and Typhoons. It is a perfect city for students to focus on their studies. Since its establishment, University of East Asia has promoted the education of humanity and professional skills to better society with the goal of training international personnel with creative minds, spirit of service, and health. In order to achieve this, UEA has programs consisting of small groups from the first year so that students can study in various fields such as medicine, health, sports, education, and design and take curriculum to acquire different qualifications and licenses. UEA has professors with expertise in various fields that help students find their future goals during their 4 years and nurture them to become global leaders. Students actively participate in internships in and out of the country.
