JSPS Bangkok Office was established in 1989 in order to develop academic networks between Japan and ASEAN region. JSPS Bangkok Office covers across ASEAN region, Nepal, and Bangladesh. JSPS Bangkok Office’s activities are as follows:

• Disseminate information on JSPS fellowship and research support programs
• Support JSPS alumni association activities
• Gather information on sciences in ASEAN
• Support young researchers to join JSPS programs
• Support research exchange of Japanese universities and institutes
• Collaborate various organizations for the promotion of exchange with Japanese researchers

What is JSPS

• Established in 1932
• Is Japan’s core funding agency
• Places high value on both researcher autonomy and research diversity

What does JSPS support

• From basic to applied research conducted based on the free ideas of researchers.
• Covers the entire spectrum of academic fields including humanities, social sciences, and natural sciences.

**Bilateral Programs**

[https://www.jsps.go.jp/english/e-bilat/](https://www.jsps.go.jp/english/e-bilat/)

JSPS promotes international scientific exchanges between Japan and counterpart countries in accordance with agreements or memoranda of understanding concluded with academies, research councils and other science-promotion organizations in those countries. Programs with such partner agencies mainly take the form of joint research projects, joint seminars and researcher exchanges. Proposals for bilateral programs are openly recruited, and, per agreement with the partner agency, are jointly selected and supported. Project proposals are solicited via the following two programs:

- Joint Research Projects and Seminars in cooperation with countries where counterpart funding agencies have bilateral agreement with JSPS
- Open Partnership Joint Research Projects and Seminars with all countries that have diplomatic relations with Japan including with Taiwan and Palestine

**Core-to-Core Program**

[https://www.jsps.go.jp/english/e-c2c/](https://www.jsps.go.jp/english/e-c2c/)

Since FY 2012, the Japan Society for the Promotion of Science (JSPS) has implemented Core-to-Core Program, comprising two components:

- Advanced Research Networks
- Asia-Africa Science Platforms

This program is designed to create top world-class research centers that partner over the long term with other core research institutions around the world in advancing research in leading-edge fields, on issues of high international priority, and in areas that contribute to the solution of prevailing problems in the Asia-African regions. While advancing research in these fields and building core research and education hubs in the Asia and Africa, the Core-to-Core Program also concentrates on fostering the next generations of trailblazing young researchers.
